

MAYFIELD FUND

## David Ladd

Venture Partner

With his deep engineering experience and networking expertise, David Ladd serves as Mayfield's communications & VoIP expert.

David was an early engineer at ROLM Corporation. After eight years at ROLM, he co-founded voice messaging company Opcom/VMX, which grew to a \$100 million publicly held company. In 1994, VMX merged with Octel Communications and David became CTO. After Lucent Technologies acquired Octel in 1997, David joined Mayfield part-time while continuing to help Lucent form spin-out companies based on Bell Labs technology. David joined Mayfield full-time in May 1999.

David holds a B.S. degree in Engineering Physics from U.C. Berkeley and an M.S. in Computer Science from Stevens Institute of Technology.
